Qualifications Summary

- Bachelor's Degree in Computer Science with a concentration in Information Technology; Associate's degree in Web Development.
- Experience with Windows, Mac OS X, and Linux operating systems.
- Knowledge of programming languages including C++, JavaScript, PHP, HTML5, CSS, Java, and MySQL.
- Talented and passionate recent college graduate with positive energy and potential.
- Enthusiastic, knowledge-hungry learner, eager to meet challenges and quickly assimilate new concepts.

Technology Profile

Operating Systems: Windows, Mac OS X, and Linux.

Programming Languages: C++, HTML5, CSS, JavaScript, PHP, Java, Unix shell scripts.

Applications: Adobe Dreamweaver, Visual Studio, Adobe Fireworks, Microsoft Access, Microsoft Excel, Microsoft Word, Microsoft Powerpoint, Xcode, NetBeans.

Database Languages: MySQL, SQL.

Projects Completed

Limestone College

- Capstone Project: Large scale website I created in Adobe Dreamweaver that featured multiple webpages using HTML5, CSS3, JavaScript, and jQuery.
- C++: Multiple projects completed that used basic and complex C++ concepts and proper syntax. Throughout these projects, I worked with loops, if/else statements, strings, arrays, user-defined functions, and switch case statements.
- PHP & MySQL: Worked on various projects and assignments that utilized forms, manipulated strings, added functions and control structures, worked with databases in MySQL, saved state information, cookies, and sessions.

Midlands Technical College

- JavaScript: Developed interactive webpages that were visually appealing, user friendly, and interactive.
- HTML5: Created multiple websites using the standard markup language and incorporated CSS3.
- Java: Worked on and completed projects that used control structures, loops, functions, arrays, and proper Java syntax.

- SQL: Learned the rules and concepts of database administration. Maintained databases by creating tables, manipulating data, and analyzing database content.

Education

Limestone College, Gaffney, SC — December 2015
B.S. in Computer Science - Information Technology
GPA: 3.45

Midlands Technical College, Columbia, SC — May 2013
A.S. in Computer Science - Internet Programming/Web Development

Personal Skills

- Dedication: Productive worker with solid work ethic; ensures all projects and assignments are completed successfully.
- Adaptability: Highly adaptable, positive, resilient worker who is open to new ideas; able to excel in self directed and group settings.
- Professionalism: Highly organized worker, with the ability to multi-task and maintain a standard of professionalism.
- Positive Attitude: Positive and energetic; maintains positive attitude and energy throughout tasks and projects.
- Desire to learn: Always looking to learn more and new technologies in order to advance knowledge and better contribute to projects.

Work Experience

Sales Associate, The Home Depot; Columbia, SC— 2010-2016
- Satisfies customer needs to ensure customer satisfaction.
